In providing the services described herein, the Partnership shall coordinate and consult with staff from the appropriate City departments, as designated by the Mayor.
- 1.4 <u>City Level of Service</u>. The City represents that the levy of the Assessment shall not be utilized as a basis to diminish the level of municipal services that have been regularly and customarily provided in Downtown. The City recognizes that the Assessment is being levied to enhance existing City services in Downtown. Accordingly, the City shall not reduce municipal services in Downtown, unless the service reduction is part of and proportional to a more comprehensive, citywide program of service reduction or the reduction is predicated on a finding that the diminution in services is necessary to protect the public safety, health and welfare.

Notwithstanding the foregoing, no provision of this Agreement shall constitute a general obligation or general indebtedness of the City within the meaning of the Constitution and laws of Florida. The provisions hereof do not constitute either a pledge of the full faith and credit of the City or a lien upon any property of the City other than the amount of revenues received by the City from the levy of the Assessment to the extent provided in this Agreement. Neither the Partnership nor any other person shall ever have the right to compel the exercise of any taxing power of the City or any other public authority or governmental body to pay any amounts or provide any services required to be paid or provided pursuant to this Agreement.

- 2.2 <u>Payments</u>. Subject to Section 2.1 of this Article Two, payments by the City shall be made as follows:

- (f) The City shall notify the Partnership when it has disbursed all revenues received from the Assessment. Thereafter, prior to making disbursements to itself from the Fund, the Partnership shall submit a final invoice to the City describing the services rendered. Upon approval of such invoice by the City, the Partnership may disburse to itself the remaining balance in the Fund.

- (g) In the event this Agreement is terminated for cause by the City as provided in this Agreement, the Partnership shall immediately remit any balance in the Fund to the City.
- 2.3 Accounting. The Partnership shall maintain such records and accounts as are deemed necessary by the City to assure a proper accounting for all City funds. The aforesaid records shall be made available for audit or inspection purposes at any time during normal business hours and as often as the City may deem necessary. The Partnership shall retain for such inspection all of its records and supporting documentation applicable to this Agreement for five (5) years from the date of the termination of this Agreement.
- 2.4 Other Funding Sources. Nothing herein contained shall preclude the Partnership from seeking and obtaining funding from other sources, including but not limited to the City, Hillsborough County, the Port Authority, the University of Tampa, the State or Federal governments, or private sources. Any funds received by the Partnership from such other sources shall be in addition to the funds to be paid from the Assessment and shall not affect or diminish the City's obligations under this Agreement. Notwithstanding the foregoing, a party may terminate this Agreement for breach of a material term or condition only if such breach remains uncured for a period of thirty (30) days after written notice has been hand delivered to such party, unless such party, within said thirty (30) day period has commenced and, in good faith, continued to cure said breach.

A. Introduction

Purpose of the Assessment:

The proposed special assessment for the Westshore Business District is designed to implement improvements that will offset the impact of past and future growth in the Westshore Business District. Among the challenges brought on by growth are transportation and traffic congestion issues, pedestrian infrastructure improvement and safety issues, increased crime including breakins and thefts, and the challenges of maintaining an image that continues to make the Westshore Business District attractive to property owners, businesses and visitors. The goal of the special assessment is to provide benefits to property owners in the Westshore Business District through increased commercial trade and enhanced property values in the area.

The Westshore Business District is a thriving regional activity center with 4,000 businesses and more than 93,000 employees. In addition to being a working home for these employees, the Westshore Business District welcomes thousands of visitors to our nearly 7,500 hotel rooms, two major regional shopping centers, over 200 restaurants, and major sports facilities including Raymond James Stadium and Legends Field. Westshore is also a growing neighborhood, with more than 10,000 residents, many in new apartment communities rising in close proximity to retail and business destinations. Businesses in Westshore rely heavily on an efficient transportation network. The reconstruction of I-275 was recently completed and the Veterans Expressway widening is currently underway. Planning for major projects such as the SR60/Memorial Highway Interchange is also ongoing. These transportation projects such as the Tampa Bay Express and the reconstruction of the 275 SR60/Memorial Highway Interchange will have a direct impact on those that commute to or visit the Westshore Business District. Planning with the various government agencies in conjunction with these projects is critical to ensure improved vehicular and pedestrian mobility. Additionally, positioning the Westshore area as a transit friendly, walkable activity center is perhaps one of the largest transportation challenges.

The construction activities increase traffic congestion on surface streets in the area, but should not reduce the appeal of Westshore for companies considering leasing commercial/office space due to concerns that employees, visitors and customers will have a difficult time getting in and out of the area. Providing a means to alleviate the concerns that businesses have about relocation, expansion, employee retention and safety in the Westshore Business District is of utmost importance. With the physical changes in the district, marketing the area becomes a challenge. Taking a direct marketing approach to confirm that the area and businesses are open and accessible and to show alternate routes into the area becomes very important. The Westshore Alliance can, and will, serve as the Westshore Business District's voice to disseminate this important and timely information to the public. These efforts will provide beneficial information that is not easily obtained nor communicated through a single business.

It is the goal of the Westshore Alliance to minimize the potential impact that growth and construction activities will have on the area by providing specialized information on transportation operational improvements and/or detours and providing an enhanced pedestrian environment. These actions will facilitate ease of access and movement for employees and visitors to the area businesses, hotels, shopping centers and restaurants to reduce the potential impact on surrounding uses. The challenge is to make the experience of the employees and the office/commercial visitors as pleasant as possible. The need for increased transportation management as well as marketing and security is critical to ensure the economic stability and continued successful growth of the area. More detailed descriptions of the problems to be solved

and the proposed solutions that can be provided through the proposed special assessment are presented below.

B. General Description of Improvements and Benefits

Long-term benefits will be realized by the property owners and businesses within the Special Assessment District by ensuring and/or enhancing their economic vitality due to a more efficient transportation system and an improved pedestrian infrastructure. Without sufficient access to the Westshore area with efficient traffic operations management, businesses, including retail establishments, hotels, restaurants and entertainment venues, may realize a decline in revenues. Commercial real estate leasing, sales and value may also suffer due to businesses concerned with locating into a heavily traffic congested area. To a lesser extent, commuters moving through the Special Assessment District, no matter where their trip originated, will realize the immediate benefit of the improvements by moving through the area with less traffic congestion and time delays – a maximum benefit for the business properties within the Special Assessment District. In addition, employees, visitors and residents will benefit from infrastructure improvements providing enhanced pedestrian accessibility, convenience and comfort.

Ensuring free-flowing transportation and pedestrian movement is a value that cannot have a price tag put on it, but as stated above, the value is two-fold; 1) An immediate benefit for customers and employees traveling in and through the Westshore Business District, and 2) The long-term benefits realized by the property owners and businesses within the Special Assessment District by ensuring and/or enhancing their economic vitality. Without adequate transportation management, the impact of the pending long-term roadway construction, detours, traffic congestion and deficient pedestrian system may have a negative impact on commercial trade including retail sales, hotel accommodations, offices leasing and the restaurant/entertainment industry within the Westshore Business District.

In addition to transportation management, marketing the Westshore Business District is vital to maintaining the positive and professional business image of the Westshore Business District. Westshore is a destination location for business, residents and visitors to the Tampa area. Marketing to maintain the upscale and positive Westshore name to newcomers into the area is crucial in order to continue to thrive in an ever-changing economy.

Marketing that promotes the Westshore area needs the added value the Special Assessment will afford. Workers, residents and visitors to the Westshore area will know the amenities and value that will be derived. The goal of marketing is to promote Westshore to not only the local market, but to businesses outside Westshore looking for relocation and expansion opportunities. The goal is to maintain and enhance the image of Westshore allowing for growth that provides increased revenue to commercial businesses, hotels, office leasing and the restaurant/entertainment industry.

Safety is another element critical to the economic base of the Westshore Business District. Fortunately, this is one of the most vibrant and prosperous areas in Tampa that can boast that Westshore is a safe area to live, to do business and to frequent for entertainment. In order to maintain and enhance the safety of the Westshore Business District, additional budgetary resources for the cooperative effort with the Westshore Alliance and the Tampa Police Department are needed.

The policing that occurs through the cooperative effort discussed above will continue to bring crime down with the added network of eyes and voices. The volume of employees and visitors wishing to work and do business in the Westshore Business District will remain at the highest level with the knowledge that those who live, work and do business in the area are in a safe region.

Property owners assessed will benefit more by being specifically included in marketing efforts and by safety through having a direct connection to the on-duty police force. Therefore, the property owners who are included in the special assessment will receive more direct benefit. Newsletters and digital communications will give an advantage through information keeping them up to date on roadway construction schedules, crime statistics, marketing opportunities, and the network formed through the direct connection with the Westshore Alliance.

(1) Transportation

Transportation has been consistently identified as a major concern for businesses in the Westshore Business District. As a proactive measure, the Alliance was required by a mandate stated in the Westshore Development of Regional Impact (approved by the Tampa City Council on July 19, 2001) that several types of transportation improvements would be funded in full, or in part, through special assessments. The transportation element of this special assessment will provide needed assistance to counteract the negative impacts associated with major multi-year transportation improvement projects, projected growth, and the subsequent increase in vehicular and pedestrian traffic.

To help meet the demand for traffic movement, previous Westshore Alliance Special Assessment funds were used to lease communication lines for six Intelligent Transportation System (ITS) traffic cameras that provide real time transportation management and evaluation. Eleven (11) cameras were installed and now provide full coverage throughout the special assessment area. The cameras feed live video to the City traffic information system. Traffic is monitored by City personnel and traffic light "green time" can be manipulated. The City of Tampa converted all cameras to a fiber optic system, no longer requiring the Westshore Special Assessment to fund leasing of communication lines for the cameras.

As part of a larger strategy to encourage alternatives to vehicular movement within Westshore the Westshore Alliance continues to implement the approved Pedestrian Plan and subsequent Addendum to promote pedestrian travel by addressing pedestrian infrastructure needs.

The Westshore Area Pedestrian System Plan and Addendum are blueprints for establishing a safe and attractive pedestrian-oriented environment by enhancing pedestrian accessibility, convenience, and comfort. The Plan presents strategies for strengthening the Westshore pedestrian network through a range of actions including, streetscape improvements, transit improvements, pedestrian facilities improvements, and unique environmental treatments to give the pedestrian real visibility, character, and identity. Implementation of the plan will continue with pedestrian infrastructure improvements on priority transportation corridors and priority pedestrian investment streets such as Westshore Blvd., Hillsborough, Himes, Lois, and Cypress. Serving as gateways to the area, these priority streets and intersections announce the significance of the area to motorists and provide a location for safe pedestrian crossings across the high-volume caroriented roadway. Sidewalks improvements are also planned on important streets such as Laurel, Spruce, Columbus and Manhattan.

Pedestrian infrastructure improvements which are currently planned include enhanced patterned textured crosswalks, pedestrian related intersection improvements, installation of pedestrian sidewalks, upgrading pedestrian ramps to ADA compliance and preliminary design of a complete streets project on Lois Avenue. The transportation component also includes implementation of certain elements of the Westshore Master Plan such as gateway signage and upgraded transit shelters. Total estimated costs of these transportation improvements in addition to professional engineering services are approximately \$261,521 which also includes 12.5 percent project management costs. This includes an amount of \$10,500 reserved for reimbursement to the City of Tampa for annual maintenance of the enhanced crosswalks on Boy Scout Blvd.

(2) Marketing

The Special Assessment area is a vibrant business, residential and tourist community offering Tampa's finest shopping, hotels, dining and entertainment. With 4,000 businesses and more than 93,000 employees, Westshore is the region's densest employment center. The area has over 12.75 million square feet of office space and commands the highest average rental rates in the area. Westshore is home to 15,000 residents and has also become a premier destination for visitors with nearly 7,500 hotel rooms, two major regional shopping center – Westshore Plaza and International Plaza, over 250 restaurants and outstanding sports facilities, including Raymond James Stadium and Steinbrenner Field. The area is a gateway to Tampa serving as a major regional activity center with immediate access to Tampa International Airport and access to the Pinellas County beaches. Westshore is, for many, their first impression of the Tampa Bay area.

The Alliance's marketing efforts are designed to position Westshore as the Tampa Bay area's premier regional activity center with an abundance of work, live, play options. Marketing is designed to promote business investment and property redevelopment by building awareness of Westshore's amenities. Marketing promotes the area as a dynamic regional activity center, and funds generated through the special assessment are used to develop a variety of marketing initiatives and materials including, but not limited to:

- Management and maintenance of a website (www.choosewestshore.com) with detailed information about Westshore, including demographic data, commercial office space availability, real estate development opportunities, relocation information and information designed to appeal to visitors, including listings of area hotels, restaurants and attractions.
- 2) Development of printed marketing materials relating to the vibrancy of the Westshore district and promoting Westshore as a great place to do business.
- 3) Production of a digital Westshore area map highlighting the major attractions in Westshore.
- 4) Design and placement of advertisements in strategic publications including Visit Tampa Bay's annual destination guide and various real estate oriented business publications.
- 5) Development of email campaigns with important business information and initiatives to promote Westshore.
- 6) Compilation and maintenance of demographic information about Westshore. This information is utilized by the real estate community, hotels and other businesses making economic decisions about developments in Westshore.
- 7) Development and expansion of social media channels for Westshore to raise awareness of the Westshore district and business opportunities and events happening in Westshore.
- 8) Development and logistical management for events that raise the profile of Westshore including the annual Westshore development forum and more.
- 9) Strategic partnering with area economic development organizations, including the Tampa Hillsborough Economic Development Corp. and Visit Tampa Bay. These relationships are key components to promoting Westshore as an integral part of the region.

- 10) Media engagement to leverage exposure through editorial copy, media releases and personal contact, as well as monitoring media stories to gauge exposure.
- 11) Implementation of aspects of the Westshore Master Plan and various beautification and public art initiatives to enhance the image of the Westshore district. The Westshore Alliance's marketing team is actively involved in maintaining and improving the aesthetics of Westshore. Working with the City of Tampa, Hillsborough County and Florida Department of Transportation, projects to improve and enhance landscaping and signage for the Westshore area are constantly being explored and developed. These projects are vital to enhancing the overall image of Westshore and are important to the continued ability of the area to attract new companies and visitors.

The Executive Director and Marketing/Communications Coordinator establish the plan for marketing and promoting the Westshore area, with direct input from the local business community. The Office Administrator and Administrative assistant manage events and event promotion for Westshore. Since these individuals spend portions or all of their time building the image of the area and promoting Westshore, much of their time is billable for marketing efforts. Therefore, an estimated 100% of the marketing/communications coordinator's personnel expense, 20% of the executive director's personnel expense, 25% of the office administrator's personnel expense and 25% of the part-time administrative assistant's personnel expense will be paid out of the Special Assessment funds. The remaining funding included in the Special Assessment for marketing is to be used for the marketing activities described above.

(3) Security

An additional measure proposed to protect and enhance the economic base of office and commercial real estate is to implement a safe environment for the employees, retail customers, residents and hotel/restaurant guests in the special assessment area. Providing a safe environment is vital to protecting and enhancing the economic value of the businesses in Westshore. Existing and new businesses review crime rates in determining their desire to locate in an area. The Westshore business community has high expectations when it comes to public safety and it is one of the top priorities identified by a survey conducted by the Westshore Alliance.

One of the safety programs enacted by the Westshore Alliance and Tampa Police Department (TPD) is the Westshore Business Watch. The program is designed to provide improved communication between private security personnel, property managers, businesses and the Tampa Police department utilizing phone/text/email communication and social media. The program provides rapid alerts to participants to crimes in progress, threatening situations and suspicious persons in the area. This public private partnership adds hundreds of eyes and ears to the police force, guiding them to locations of crimes in progress. The number of private citizens and security officers in the Westshore Business District is much greater than the total number of police officers available to serve the area. Through this effort, direct communication with the police, major crimes and emergencies can be reported quickly and accurately. There are many success stories that can be attributed to the safety and security programs available through the Alliance's partnership with TPD.

In addition to the Westshore Business Watch program, the Alliance reviews the latest crime statistics and crime trend reports and emails them to those requesting the information. The Alliance also publishes and distributes a quarterly Safety & Security E-News (electronic newsletter) detailing the various crime prevention programs available, upcoming safety and security events and crime statistics and prevention tips. BOLO ("Be-On-The-Look-Out") emails are also sent when we are alerted to crime in the area with a known suspect.

The Alliance also facilitates ongoing public safety awareness programs and manages the Emergency Access Card Re-entry program for commercial property owners in the Westshore district.

The special assessment funds are utilized to pay for direct costs associated with these programs and for reimbursement for an estimated 15% of the office administrator's personnel expense for management and organization of ongoing safety & security educational programs and a dedicated safety and security webpage.

C. Assessment Methodology

The assessment formula for funding the Special Assessment District is based on relative property values within the District. For the FY 2017 this assessment will be based on approximately \$0.154 per \$1,000 of assessed value as determined by the Hillsborough County Property Appraiser.

(1) Assessment Roll

Property Appraiser records included a total of 4,909 records. Of the total, 769 records will be assessed. 4,140 records are exempt.

Because the primary purpose of the project is to promote economic development, only those property owners that are expected to derive economic benefit have been identified to be assessed.

There were two criteria for a property to be exempt:

- a. Properties exempt by the Property Appraiser's Office; or
- b. The property was designated as one of the following DOR codes and/or determined exempt from the assessment since they are not expected to derive direct benefit of the proposed improvements, as follows:

The interior portion of Drew Park, single family, vacant land, condominiums, town homes, mobile home, churches, schools, rehabilitative hospitals, non-profit services, homeowner associations, mortuaries/cemeteries, clubs/lodges and union halls, cultural organizations, and colleges. DOR codes were used to determine property uses. The total assessed value of the 769 records that will be assessed is \$3,455,501,285.00.

(2) Method of Apportionment

The estimated cost to provide the improvements described above is \$532,147.04. The method of apportionment is the estimated cost of improvements (project budget)/assessed value of the 769 properties of record to be included. This equals \$0.154 per \$1,000.00 of assessed value.

It is expected that the benefits of the proposed improvements will be proportionate to the amount assessed.

This "expectation" is based primarily on the fact that the improvements provided by the assessment were identified as the most likely cost effective measures which would protect and potentially enhance commercial property value. Thus, appraised value was used as the independent variable upon which the apportionment of the assessment was based. Appraised value was determined to be the single best independent variable upon which the assessment of benefit could be based for the purposes of Transportation, Marketing, and Security improvements. In addition, the use of appraised value offers an established procedure through which property owners can achieve immediate parity in their respective special assessment amounts by establishing parity in the appraised value of their respective properties.

The Property Appraiser has long recognized that buildings with the same, or similar uses, and the same square footage may not be of equal value. This is clearly demonstrated in the Property Appraiser DOR Codes. By carefully selecting the special assessment benefits in an overall manner to primarily protect and enhance the property values of those properties being assessed, the above stated Method of Apportionment represents the fairest and equitable manner in which to distribute the prorata cost of the improvements.

Whereas, the Alliance has presented evidence to the City that each property in Westshore shall be specially benefited by the provision of the improvements and services described herein, and the Assessment will be assessed upon each such property in reasonable proportion to the benefits to be derived therefrom; and

WHEREAS, the Alliance is willing and able to provide such improvements and enhanced services, as hereinafter described, on the terms and conditions set forth below; and

WHEREAS, the Alliance also acknowledges that the City will have the responsibility of maintaining, repairing, or replacing the six (6) patterned cross walk improvements on Boy Scout Boulevard, and that as such, a portion of the estimated costs of the maintenance, repair, or replacement will be withheld by the City from future Agreements between the City and the Alliance to provide a fund to cover these expenses; and

WHEREAS, the City believes the Alliance can provide such improvements and services

efficiently and effectively; and

WHEREAS, the activities of the Alliance will advance an important public purpose;

NOW, THEREFORE, in consideration of the premises and the mutual obligations of the parties contained herein, the parties hereby covenant and agree as follows:

The Recitals enumerated above are true and accurate, and are incorporated herein as if fully set out hereof.

ARTICLE ONE SCOPE OF SERVICES

- 1.1 <u>Work Program.</u> During the term of this Agreement, the Alliance shall provide in Westshore the improvements and enhanced services described in the Westshore Special Service District Assessment Program (Exhibit "B") and Budget (Exhibit "C"), copies of which are attached hereto, and by reference made part hereof, which include transportation, marketing, security and the administration thereof. The Alliance shall in good faith provide the improvements and services described herein in such a fashion such that each property in Westshore is specially benefited by the provision of such improvements and services by the Alliance in reasonable proportion to the amount of the Assessment assessed on each such property.
- 1.2 <u>Subsequent Assessment Years</u>. The Alliance shall take any and all actions necessary to enable the City to levy the Assessment, or an assessment similar thereto, in Fiscal Year 2018 including, but not limited to, preparation of a Westshore Special Assessment and Budget for Fiscal Year 2018, preparation and distribution of all required public notices and mailings, preparation of a Westshore non-ad valorem assessment roll and preparation of all required special benefit studies, resolutions and legal opinions.
- 1.3 <u>Progress and Financial Reports; Coordination</u>. The Alliance shall provide quarterly progress reports to the City no later than thirty (30) days following the end of each quarter. Such reports shall include quantitative information as well as narrative material. In addition, the Alliance shall provide to the City a final report of expenditures within ninety (90) days after the end of the term of this Agreement. In providing the services described herein, the Alliance shall coordinate and consult with staff from the appropriate City departments, as designated by the Mayor.
- 1.4 <u>City Level of Service</u>. The City represents that the levy of the Assessment shall not be utilized as a basis to diminish the level of municipal services that have been regularly and customarily provided in Westshore. The City recognizes that the Assessment is being levied to provide additional improvements and services in Westshore. Accordingly, the City shall not reduce municipal services in Westshore, unless the service reduction is part of and proportional to a more comprehensive, citywide program of service reduction or the reduction is predicated on a finding that the diminution in services is necessary to protect the public safety, health and welfare.

Notwithstanding the foregoing, no provision of this Agreement shall constitute a general obligation or general indebtedness of the City within the meaning of the Constitution and laws of Florida. The provisions hereof do not constitute either a pledge of the full faith and credit of the City or a lien upon any property of the City other than the amount of revenues received by the City from the levy of the Assessment to the extent provided in this Agreement. Neither the Alliance nor any

other person shall ever have the right to compel the exercise of any taxing power of the City or any other public authority or governmental body to pay any amounts or provide any improvements or services required to be paid or provided pursuant to this Agreement.

- 1.5 <u>Advisory Committee</u>. The Westshore Alliance fourteen member Executive Committee, representing a broad base of uses, activities, and geographic sub-areas and having the authority to exercise all powers of the Board of Directors in accordance with Article IV, Section 1 of the Westshore Alliance Bylaws will serve as an Advisory Committee to provide information, and advise and consult concerning the implementation and performance of the improvements and services provided for in this Agreement.
- 1.6 <u>Subcontracts</u>. The Alliance may subcontract for any or all of the services provided for herein; provided that the terms of any services subcontracted hereunder by the Alliance shall be specified by written contract and shall be subject to the provisions of this Agreement.

ARTICLE TWO COMPENSATION AND PAYMENTS

2.1 <u>Compensation</u>. The City shall pay to the Alliance, and the Alliance shall accept from the City as full compensation for its services under this Agreement, including expenses, a fee not to exceed an amount equal to the revenues received by the City from the levy of the FY2016 non-ad valorem assessment and available fund balances from previous assessments, net of the City's cost allocation, but not to exceed the amount enumerated in Exhibit "C".

In FY2014, the Alliance agreed to reduce these funds by approximately \$103,740.00 to cover the cost of providing the improvements listed in the Recitals above. Additionally, the Alliance acknowledges that these funds will be reduced by 1/7th of the total estimated maintenance and/or future replacement cost for the six textured crosswalks. The amount shall be determined annually and adjusted to actual costs.

- 2.2 <u>Payments</u>. Subject to Section 2.1 of this Article Two, payments by the City shall be made as follows:
- (a) The City and the Alliance acknowledge that, pursuant to a prior agreement between the parties, the City has paid the Alliance proceeds of a prior special assessment, which proceeds were placed in a fund (the "Fund") from which the Alliance made disbursements to itself for the provision of the improvements and services associated with such assessment.
- (b) In accordance with Section 2.2(e) of this Agreement, the City shall replenish the Fund, so long as funds from the special assessment are available to do so, up to the amount of forty-five thousand dollars (\$45,000) (the "Base Amount").
- (c) The Alliance shall place the funds paid by the City pursuant to this Section 2.2 in the Fund from which the Alliance shall make disbursements to itself for the provision of the services provided in this Agreement.
- (d) On a monthly basis, the Alliance shall request the City to replenish the Fund up to the Base Amount by submitting to the City an invoice for the prior month, accompanied by copies of

original receipts, describing the improvements and services rendered by the Alliance pursuant to this Agreement.

- (e) As promptly as is practicable after the City receives said invoice, and contingent upon the availability of sufficient revenues from the Assessment to cover the amount of said invoice, the City, subject to its review and approval, the provisions hereof, and applicable law, shall make payment on said invoice to the Alliance for the purpose of replenishing the Fund up to the Base Amount.
- (f) The City shall notify the Alliance when it has disbursed all revenues received from the Assessment. Thereafter, prior to making disbursements to itself from the Fund, the Alliance shall submit a final invoice to the City describing the improvements and services rendered. Upon approval of such invoice by the City, the Alliance may disburse to itself the remaining balance in the Fund.
- (g) In the event this Agreement is terminated for cause by the City as provided in this Agreement, the Alliance shall immediately remit any balance in the Fund to the City.
- (h) The City may reduce payments to the Westshore Alliance for approved transportation projects and make these payments directly to other governmental agencies from the special assessment funds that have been collected within the Special Assessment District, thus reducing the funds available to the Alliance for projects contained in its Work Program (attached as Exhibit "B" of this Agreement). These payments could include initial capital construction costs and scheduled/unscheduled maintenance.
- (j) The City will annually withhold funds collected from the Westshore Special Assessment District, and place these funds in a designated reserve account sufficient to amortize future capital repairs, maintenance, replacement and renovations.
- 2.3 Accounting. The Alliance shall maintain such records and accounts as are deemed necessary by the City to assure a proper accounting for all City funds. The aforesaid records shall be made available for audit or inspection purposes at any time during normal business hours and as often as the City may deem necessary. The Alliance shall retain for such inspection all of its records and supporting documentation applicable to this Agreement for five (5) years from the date of the termination of this Agreement.
- 2.4 Other Funding Sources. Nothing herein contained shall preclude the Alliance from seeking and obtaining funding from other sources, including but not limited to, the City, Hillsborough County, the State or Federal governments, or private sources. Any funds received by the Alliance from such other sources shall be in addition to the funds to be paid from the Assessment and shall not affect or diminish the City's obligations under this Agreement, except as enumerated above. In addition, nothing herein contained shall preclude the Alliance from contracting with the City or with any other entity to perform other services or functions within or related to Westshore.

ARTICLE THREE TERM AND TERMINATION

- 3.1 <u>Term.</u> The term of this Agreement shall commence on October 1, 2016 and shall end on September 30, 2017 or the date on which all revenues received from the current year's Assessment have been expended, whichever occurs first, unless this Agreement is otherwise earlier terminated as provided herein, or extended by written agreement of the parties.
- 3.2 <u>Termination for Cause</u>. Either party may terminate this Agreement for cause upon giving the other party thirty (30) days written notice of termination. As used herein, "cause" shall mean (i) the breach of any material term or condition hereof, (ii) the commission of an unlawful act or failure to act relating to the subject matter hereof, or (iii) the use of funds for a purpose not authorized in the Westshore Business District Program and Budget. Notwithstanding the foregoing, a party may terminate this Agreement for breach of a material term or condition only if such breach remains uncured for a period of thirty (30) days after written notice has been hand delivered to such party, unless such party, within said thirty (30) day period has commenced and, in good faith, continued to cure said breach.

ARTICLE FOUR INSURANCE

All insurance shall be from responsible companies duly authorized to do business in the State of Florida. Renewal certificates of insurance shall be provided to the City ten (10) working days prior to expiration of the current coverages. Each certificate must be personally manually signed by the authorized representative of the insurance company shown in the Certificate. Thirty (30) days written notice by registered or certified mail must be given the City of any cancellation, intent not to renew, or reduction in the policy coverage, except in the application of the aggregate liability limits provisions. Should any aggregate limit of liability coverage be reduced, it shall be immediately increased back to the limit required by this Agreement. The insurance coverages required herein are to be primary to any insurance carried by the City or any self-insurance program thereof.

The following types and minimum limits of insurance are required:

a. <u>Workers' Compensation and Employer's Liability Insurance</u> shall be provided for all employees engaged in the work under this Agreement, in accordance with the laws of the State of Florida. The amount of the Employer's Liability Insurance shall be not less than:

The indemnity hereunder shall continue until all provisions of this Agreement have been fully performed by the Alliance. This provision does not cover or indemnify the City for its own negligence.
- In the event that any action, suit or proceeding is brought against the City upon any liability arising out of this Agreement, or any other matter indemnified against, the City, within five (5) business days, shall give notice in writing thereof to the Alliance by registered or certified mail addressed to the Alliance at its address hereinabove given. Upon the receiving of such notice, the Alliance, at its own expense, shall defend against such action and take all such steps as may be necessary or proper.

ARTICLE SIX MISCELLANEOUS

- Parties-In-Interest; Assignment. This Agreement is binding upon and shall ensure to the benefit of the parties hereto and their respective successors and assigns. No person who is not a party hereto shall have any rights under this Agreement, either as a third party beneficiary or otherwise. Neither party may assign this Agreement without the prior written consent of the other party, which consent shall not be unreasonably withheld; provided, however, that the Alliance, with the City's consent, may establish a corporation to fulfill the responsibilities and duties of this Agreement and to receive the benefits thereof. If such a corporation is established, this Agreement may be assigned to said corporation and, thereafter, the Alliance shall have no liabilities, duties, or responsibilities hereunder.

- 6.8 <u>No Agency Relationship</u>. The Alliance is not the agent, sub-agent or representative of the City.
