
MEMORANDUM

Vice Mayor Jim Lyons
Members of the Town Council

FROM: Leonard G. Rubin, Town Attorney

RE: Ordinance No. 688 (Storm Panels) – **Second Reading**

DATE: January 10, 2017

CC: Joseph Lo Bello, Town Manager
Vanessa Mutchnik, Town Clerk
Ruben Cruz, Director of Planning and Zoning

Background:

The Town Council requested that Staff prepare an ordinance providing time limitations for the installation of storm panels and shutters.

Staff presented an Ordinance adopting a new Section 34-876 of the Town Code providing that storm panels and shutters shall not be permitted to cover window and/or door openings with the following exceptions:

1. If a hurricane or tropical storm warning or watch has been issued for any portion of Palm Beach County, storm panels and shutters may be installed and must be removed within two (2) weeks of the end of the storm event or the cancellation of the hurricane or tropical storm warning or watch.
2. During hurricane season (June 1st to November 30th), storm panels and shutters may be installed **if the structure remains unoccupied**. The panels and shutters may be installed two (2) weeks prior to the beginning of hurricane season and must be removed within two (2) weeks after the end of the hurricane season. Occupied structures are governed by the regulations in the paragraph above.

The Town Code requires that the Planning and Zoning Board review all amendments to Chapter 34 of the Town Code. While the Planning and Zoning Board determined that the Ordinance should be restricted to apply only to storm panels and not to storm shutters and recommended additional language exempting unoccupied structures that are not visible from a street, alley, traveled road or adjacent property, the Town Council adopted, on first reading, the Ordinance originally proposed by Staff.

Recommendation:

Staff recommends that the Council adopt Ordinance No. 688 on second and final reading.
