

**AGENDA SUMMARY  
TAVARES CITY COUNCIL  
April 5, 2017**

**AGENDA TAB NO. 9**

**SECOND READING**

**SUBJECT TITLE:     Ordinance 2017-01  
                          Amendment to Sign Regulations-Content Neutral**

---

**OBJECTIVE:**

To consider an amendment to the Sign Regulations within the Land Development Regulation that would bring these into conformity with recent Supreme Court decisions.

**SUMMARY:**

A U.S. Supreme Court decision in *Reed v Town of Gilbert* ruled that regulating signs based on the message on the sign would be a restriction to free speech or conversely show favoritism to some category of speech. The court further determined that regulating signs based on the message would be unconstitutional and would invalidate the regulation or governing code.

This court opinion calls into question almost every sign code in this country (including Tavares) as few, if any, have "content-neutral" provisions.

In general, at present, most signs that are temporary are regulated by the message or purpose implied by the sign. Real estate, special event, garage sale, sidewalk sale and political signs are examples. Snipe signs are also considered temporary. Under the Supreme Court ruling, since message cannot be a regulating consideration, all temporary signs are clumped together with equal rights and our Code Enforcement Department now cannot legally differentiate between a real estate, yard sale or snipe sign.

The court did recognize that governmental type signs such as traffic signs in the street right-of-ways fall into a separate category and are necessary for safety and protection. All model ordinances and the proposed regulations for Tavares, defines and allows Governmental Signs in street right-of-ways. The court also stated that sign design such as size, height, location, number allowed, etc. could be regulated provided no reference is made to the sign message.

**Highlights of Proposed Revised Regulations:**

1. Only Governmental Signs are allowed in street Right-of-Ways.
2. Snipe Signs are not allowed.
3. Every land parcel is allowed two temporary signs not exceeding 6' in height or 32 square feet in size. The message displayed on these signs is not regulated.
4. No permit is required for temporary signs.
5. The design criteria for permanent signs have not been changed.
6. All references to messages displayed on signs have been removed (content-neutral).
7. Lake County's draft content-neutral sign ordinance was used as a guide for the proposed new regulation.

**OPTIONS:**

1. That City Council moves to approve Ordinance 2017-01.
2. That City Council moves to deny Ordinance 2017-01.

**STAFF RECOMMENDATION:**

Staff recommends that City Council moves to approve Ordinance 2017-01.

**FISCAL IMPACT:**

5 Section 21-1 Purpose

6  
7 The purpose of this chapter is to establish regulations for the erection and use of signs and outdoor advertising within  
8 the City limits of Tavares. These regulations are established to provide reasonable advertising and identification of  
9 businesses within Tavares while also protecting the health, welfare and safety of the citizens of Tavares by reducing  
10 the adverse effects of signage and displays on highway safety, building safety, property values and the aesthetic  
11 enjoyment of the City. These regulations are further intended to avoid excessive competition and visual clutter among  
12 sign displays in the demand for public attention.

13  
14 **Purpose and Intent and Administration.**

15 The City of Tavares has become a recognized tourist and economic growth center in Florida. Sign  
16 regulation is needed to encourage a visually pleasing environment in order to attract residential  
17 construction, tourist activity, business and industrial development. The City of Tavares also views sign  
18 regulation as a method of protecting the public investment, ensuring pedestrian and traffic safety,  
19 promoting the effectiveness of advertising, discouraging over-concentration, unsuitable location, and  
20 excessive height, bulk and area. It is the intent of this chapter to provide signage regulations to preserve  
21 scenic, economic and aesthetic values including the special character and attractiveness of the City of  
22 Tavares.

23 Where the provisions of this chapter are in conflict with any other regulations or parts of codes, the more

**AGENDA TAB NO. 10**

**SECOND READING**

**SUBJECT TITLE: Ordinance 2017-02  
Amendment to Code of Ordinances-Garage Sales-Content Neutral**

---

**OBJECTIVE:**

To consider an amendment to the city's Code of Ordinances pertaining to garage sales and permitted signage that would bring these into conformity with recent Supreme Court decisions.

**SUMMARY:**

A U.S. Supreme Court decision in *Reed v Town of Gilbert* ruled that regulating signs based on the message on the sign would be a restriction to free speech or conversely show favoritism to some category of speech. The court further determined that regulating signs based on the message would be unconstitutional and would invalidate the regulation or governing code.

This court opinion calls into question almost every sign code in this country (including Tavares) as few, if any, have "content-neutral" provisions.

In general, at present, most signs that are temporary are regulated by the message or purpose implied by the sign. Real estate, special event, garage sale, sidewalk sale and political signs are examples. Snipe signs are also considered temporary. Under the Supreme Court ruling, since message cannot be a regulating consideration, all temporary signs are clumped together with equal rights and our Code Enforcement Department now cannot legally differentiate between a garage sale and snipe sign.

The city's Code of Ordinances presently allows up to three signs advertising garage sales within the city street right-of-way. Since signage cannot be regulated by its message, this inadvertently would also allow snipe signs. The only constitutional way to eliminate snipe signs in city right-of-ways is to prohibit all signs other than governmental signs in right-of-ways.

The proposed ordinance eliminates the provision allowing garage sale signs in the street right-of-ways and does allow temporary signage as provided in the amended sign regulations of the Land Development Regulations on the parcel of property conducting the sale. Since temporary signs, typically political, real estate and special event do not require permits, permitting for garage sale signage has also been deleted. This presently is a "no-fee" permit and will therefore have no fiscal impact.

**OPTIONS:**

1. That City Council moves to approve Ordinance 2017-02.
2. That City Council moves to deny Ordinance 2017-02.

**STAFF RECOMMENDATION:**

Staff recommends that City Council moves to approve Ordinance 2017-02.

**FISCAL IMPACT:**

N/A
