***Staff Recommendation:** Staff recommends the Town Council review the information and direct staff on how to proceed.*

11. DISCUSSION ON THE TOWN’S CURRENT NOISE ORDINANCE - ANALYSIS AND COMPARISON

(Per the request of Council)

***Staff Recommendation:** The Town Council may wish to consider adding provisions regulating noise adjacent to schools, courts, hospitals, and churches; related to lawn maintenance equipment; or to change the provisions for sounds related to advertising to include those without the use of amplification, similar to the hawkers and peddlers provisions used by other municipalities. At least two of the reviewed municipalities have such provisions.*

The Town Council may also wish to more clearly define measurement periods and methodologies, though the provisions currently in place are legally sufficient. The Town may

also consider adopting a plainly audible standard for some noises or for noises in a particular area; such as how North Palm Beach regulates all noise in residential areas by a plainly audible standard. The plainly audible standard is a less precise measurement technique, which makes it easy to apply and test.
